

FABRIC CARE CODES

CHEAT SHEET

W

- Safe for spot cleaning with water-based products (like mild detergent + water).
- Most common and easiest to maintain.

- Requires solvent-based cleaners (dry cleaning solution only).
- Avoid water—it can cause stains, rings, or shrinking.

S

WS

- Most versatile. Safe with both water-based and solvent-based products.
- Spot clean with care; always test first.

- Professional cleaning recommended.
- Do not use water or solvents—just vacuum or brush lightly to remove dirt and dust.

X

PRO-TIP

Always test cleaners in an inconspicuous area first. When in doubt, consult a professional upholstery cleaner to extend the life of your fabrics.
